

eLCOSH Images

A library of construction safety and health photos

CPWR is developing this online library of construction photos for trainers and other professionals to use in handouts, PowerPoint presentations, or other communication needs. All the images are free to the public.

We want to test the site with union leaders, trainers and others to see what features people like and how we can improve it.

See the reverse side for our simple instructions.

eLCOSH Images has not yet been made public. Please go to www.elcosh.org/images.

Tell us about your experience using eLCOSH Images.

1) What images/types of images did you search for?
