ACKNOWLEDGMENTS

This book is a product of CPWR’s Data Center: Xiwen (Sue) Dong, Dr.P.H., principal author; and Xuanwen Wang, Ph.D., and Julie Largay, M.P.H., co-authors. Christina Trahan, C.I.H., Laura Welch, M.D., James Platner, Ph.D., Pam Susi, M.P.H., Bruce Lippy, Ph.D., Linda Goldenhar, Ph.D., Robin Baker, M.P.H., and Eileen Betit served as internal reviewers and offered many valuable comments on this edition. Many other CPWR staff provided input and support in the preparation of this edition. We also greatly appreciate the contribution of Knut Ringen, Dr.P.H., CPWR’s scientific advisor, and Christine Branche and Matt Gillen of the Construction Office at the National Institute for Occupational Safety and Health (NIOSH) for their review and comments.

We would like to thank the members of CPWR’s Technical Advisory Board (TAB) under the leadership of chair Ralph Frankowski, Ph.D., of the University of Texas School of Public Health, for assistance in planning and guidance on the content of the book. TAB members include Eula Bingham, Ph.D., Department of Environmental Health, University of Cincinnati Medical School; Letitia Davis, Sc.D., director, Occupational Health Surveillance Program, Massachusetts Department of Public Health; Denny Dobbin, M.Sc., C.I.H., safety, health, and environmental consultant; Steven Hecker, M.S.P.H., Department of Environmental and Occupational Health Sciences, University of Washington; Jim Melius, M.D., Dr.P.H., administrator, New York State Laborers Tri-Funds; Melvin Myers, M.P.A., University of Kentucky; Harry Shannon, Ph.D., Department of Clinical Epidemiology & Biostatistics, McMaster University; and David Weil, Ph.D., Boston University School of Management. Davis, Dobbin, Hecker, Myers, and former TAB co-chair Anders Englund, M.D., also served as reviewers.

We also wish to thank the CPWR Construction Economics Research Network under the direction of its chairman, Dale Belman, Ph.D., Michigan State University, for his invaluable review and input on many of the pages presented in this document.

The Chart Book includes a significant amount of information provided by a number of sources. We are indebted to the assistance provided by staff at the Census Bureau, the Bureau of Labor Statistics (BLS), Employment and Training Administration (ETA) at the Department of Labor (DOL), NIOSH, the Occupational Safety and Health Administration (OSHA), and the U.S. Green Building Council (USGBC).
