

...

What Is a Confined Space?

...

- ① Has limited or restricted openings for entry/exit
- ② Is not meant for continuous employee occupancy
- ③ Is large enough and shaped so an employee can get inside the space and do assigned work

•••

What Makes It a Permit-Required Confined Space

•••

at least one of the following:

- Hazardous atmosphere (or potential for one)
- Material that could engulf a person
- A shape that could trap or asphyxiate someone
- Any other recognized serious safety or health hazard, including any other hazard that will prevent a worker from self-rescue
