

# GETTING THE COVID-19 VACCINE

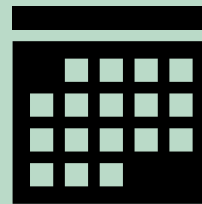

In many states, construction workers have been deemed essential and are part of **Phase 1C** in the CDC's COVID-19 vaccine rollout recommendations.\*

1. Contact your state or county health department, doctor's office, local pharmacy, or other vaccination center to find out when you can get vaccinated.

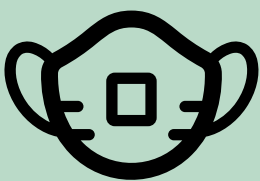

2. Get Shot #1 as soon as it's available to you. Both authorized vaccines require 2 doses to be fully effective. Schedule your second shot now!

3. Wait approximately 3-4 weeks

4. Get Shot #2.

5. Continue wearing your mask and practicing social distancing! More information is needed about the protection provided in real-world conditions.
